Subject: NO Oil Trains in SLO County!

---

As a Templeton resident I am profoundly concerned about Phillips 66's proposal to expand its San Luis Obispo County refinery to receive oil trains carrying explosive, toxic, and carbon intensive tar sands oil. With more than 5 million California residents living in the oil train blast zone, for the sake of public health and safety I urge you to oppose this expansion. Move beyond oil! Invest in clean, safer energy sources for all of us.
